New Research Study using Healing Light

Our Light of Healing Hope gift packages containing the book *Healing Light* and our Healing Messages journal are being used as tools of comfort and hope in a new research study. *The Hickman Cancer Center* at the Flower Hospital in Ohio is studying the effects of journal writing on women healing from breast cancer. Participants are provided with our gifts by Nursing Assistant Katie Tipton, pictured at left with breast cancer patient, Elizabeth. Below is some of the feedback we have received:

I passed on my book onto a friend at work that is battling stage four lung cancer.

All these poems are dear to me, they offer peace to my mind and soul.

We need support and encouragement through these times. This book was refreshing.

It helps to keep my mind in a better place and helps me remain positive and hopeful.

Reception at the British Ambassador's Residence to honor Hollister K. Petraeus

The British Ambassador, Sir Peter Westmacott, and Lady Westmacott very graciously hosted a Light of Healing Hope Foundation fund raising reception in their elegant residence to honor Hollister K. Petraeus for her dedication to military families. We are grateful to our donors for their generous support that allows us to continue our mission to bring gifts of hope to those who are suffering. Kelli Rodriguez provided charming reception gift bags at the event courtesy of *L'Oréal USA*.

Lady Westmacott, Alexandra de Borchgrave, Hollister Petraeus, Sir Peter Westmacott
